

Take the PLASTIC-IN-A-JAR Challenge

Help reduce plastic waste in Greater Sudbury!

Plastic Waste is a common issue in urban waterways and has negative impacts on water quality and local wildlife. In Greater Sudbury, litter and plastic waste are entering Junction Creek and flowing into connected water bodies, including the Great Lakes. By reducing your personal plastic waste consumption, you will divert plastics from entering the waterways. This challenge will allow you to become more aware of the extent of your plastic waste, what single-use plastics you commonly use, and where you can improve by choosing reusable alternatives for the future. Put your plastic waste over the week into the container, and see what you collect!

The Challenge

- * Collect and fit your plastic waste into the smallest jar possible for 1-week
- * Take pictures of your progress and at the end of the week
- * Optional! use our Plastic Tracking Sheet to tally your plastic waste
- * Share on social media tagging @JunctionCreek, #BePlasticWise!, #JunkFreeCreek
- * Send your results to the Junction Creek Stewardship Committee by email, programs@junctioncreek.com in order to be entered for a chance to

WIN A PRIZE!

Challenge ends February 28th 2021
