

JUNCTION CREEK GROUP CLEANUP

Our **Group Cleanup activities** are 2 hrs in duration along a section of Junction Creek. Participants will help remove litter from shorelines and trails, contributing to a healthier waterway and a cleaner, greener community.

WHAT TO EXPECT

The Junction Creek crew will provide all the materials and supplies needed to conduct the cleanup safely. We just need volunteers!

- All cleanup materials provided – gloves, garbage bags, safety instructions, and waivers
- Site selection tailored to your neighbourhood of interest or identified litter hotspots
- Cleanup booked through the City of Greater Sudbury's Adopt-a-Spot program (includes garbage pickup)
- Tally sheets for tracking the types of litter collected – help us understand and address pollution trends
- Final weigh-in of collected garbage
- Group photo to celebrate your impact!
- Portable hand-washing station and hand sanitizer for your safety and comfort
- Refreshments and pizza provided at the end of the cleanup
- Impact summary shared on our social media platforms

The Junction Creek crew will be there every step of the way – reviewing safety procedures, helping during the event, and capturing moments to share.

These cleanup events are part of larger community-driven projects to reduce litter and plastic waste while promoting the health of our freshwater ecosystems and shared green spaces.
